

## **Directions for Evansville Surgery Center**

### **Gateway Location**

Evansville Surgery Center's eastside location is at the Deaconess Gateway Campus off the Lloyd Expressway and near the I-164 interchange.

As you are driving east on the Lloyd Expressway from Evansville or taking the Lloyd East exit from I-164...or driving west on the Lloyd from Newburgh...you will turn onto Epworth Road towards the Deaconess Gateway entrance.

You will make a right turn into Deaconess Gateway and proceed to make the next right as you face the Gateway Hospital to take the belt line drive to the Surgery Center.

You will pass Deaconess Gateway Hospital, the Heart Hospital, the Gateway Emergency Room, the Chancellor Center and Gateway Physician Center 1 on your left as you are heading towards the Women's Hospital.

Make a left turn towards the Gateway Physician Center number 2...where the Surgery Center is located on the first floor.

Pull under the awning by the double glass doors at the Physician Center to drop off the patient. You will also drive your vehicle to this same location to pick up the patient after they are released from surgery. Amble parking is located nearby.

Once you walk through the double glass doors...you will veer to the left towards the center of the hallway.

Evansville Surgery Center is located inside the wooden doors at Suite 100, where you will check in at the main lobby.
